Take your future to a higher level

Sydney TAFE offers a world of opportunities to take your study further and undertake higher education programs that are world class and nationally recognised.

Throughout this guide you will find details of programs offered by TAFE NSW through Sydney TAFE.

The top five reasons why we are better

1. **Earn recognition** – our TAFE NSW degrees give a high level qualification as well as practical, usable skills.

2. **It’s personal** – our small class sizes and personalised approach give you greater access to a quality education, boosting your skills along the way.

3. **Gain experience** – our courses are recognised for their hands-on approach to skills training, with built in internships and work placements enhancing your employability and career.

4. **Make connections** – get a head start while you study or after you graduate, with our strong industry ties and job placement solutions.

5. **Study on your terms** – some programs offer a mix of classroom and online delivery allowing you to balance your studies around your other commitments.

The Associate Degree of Accounting provides a practical, industry-focused qualification which includes an industry internship in the second year of study.

You can also use this course as a springboard into the final year of a three-year accounting degree with our partner universities: Australian Catholic University, Charles Sturt University, Macquarie University and the University of New England.

Successful completion of this course will enable you to work in a range of accounting roles, including:
- self-employed bookkeeper
- tax accountant
- accountant in industry
- small business accountant
- payroll supervisor (with experience)
- receivables/payables supervisor (with experience).

Developed in consultation with industry to address the need for skilled para-professionals, this two-year program will give you access to new and exciting careers in the fast-growing renewable energy technologies sector.

It provides students with the knowledge required by Engineers Australia to work within the industry, as well as practical experience through professional experience placements arranged by Sydney TAFE.

All students study the processes of conversion and storage of energy; then specialise in the infrastructure and activities associated with either electrical or mechanical engineering.

You can also use the program as a pathway into the third year of a bachelor degree in renewable energy technologies at the University of Newcastle.

Graduates of the course will have the knowledge and practical skills required to work as a para-professional in the renewable energy sector, in government, corporate, environmental and small business enterprises.

Bachelor of 3D Art and Animation

The Bachelor of 3D Art and Animation develops highly creative, technically skilled 3D design professionals by providing students with the creative, technical, communication and analytical skills needed for a successful career in this exciting industry.

Graduates of this course can establish themselves across a range of industries, including:
- filmmaking
- game design and development
- television
- online content development
- advertising.

Delivered at the Design Centre Enmore, the Bachelor of 3D Art and Animation has a strong emphasis on the development of technical knowledge and is the only degree program of its type in NSW.

This course will prepare you for a career as a 3D and visual effects artist and animator. It can also lead to roles such as a 3D concept or pre-visualisation artist, a 3D modeller on interactive games, or an animator or visual effects coordinator on a feature film.

“I decided to do the three-year degree since it would be globally more recognised and it would make me more employable.”

Tim Strain - graduate, Bachelor of 3D Art and Animation, working for iloura
A career as a financial planner, para-planner, investment advisor, client relationship manager, or financial analyst waits for graduates of the Bachelor of Applied Finance (Financial Planning).

This degree will equip you to practice as a successful financial industry professional and will provide you with the qualification to be accredited as a financial planner.

You will learn to build relationships with clients, think problems through to provide solutions to clients’ concerns and integrate theoretical and practical knowledge to suit the requirements of this complex industry.

This program includes a professional internship which allows students to put their theory into practice. It provides students with the skills and knowledge to confidently, ethically and effectively deliver advice and solutions.

As a graduate of this degree you could become a:
• financial planner
• para-planner
• investment advisor
• client relationship manager
• business investment analyst
• financial analyst
• institutional banking analyst.

Further information is available online at sydneytafe.edu.au/degrees
A career as a general manager, operations manager, advertising and marketing professional, business consultant, quality assurance manager, research and development manager, or recruitment consultant waits for graduates of this Bachelor of Business.

This degree will prepare you to work as a business professional across a range of industries, and in national and international contexts as a manager.

You will gain knowledge of management, finance, human resources, technology information systems and marketing elements of an integrated business strategy; information that is transferable to many industry sectors. This degree also extends your knowledge of using business and online technologies, commercial research methodologies, critical analysis and conceptual thinking, creative reasoning and problem-solving, which all lead to the development of the interpersonal, teamwork and leadership skills needed.

As a graduate of this degree you could become:
• general manager
• operations manager
• advertising and marketing professional
• business consultant
• quality assurance manager
• research and development manager
• recruitment consultant.

A career-oriented degree, the Bachelor of Design (Interior Design) provides a strong multi-disciplinary design focus, preparing you to work as a commercial interior designer.

You will learn how to create innovative, original concepts for commercial interior design projects, explore the spatial, structural and material elements of built interior environments and develop a comprehensive understanding of the interaction between people and spaces.

You will develop the ability to think critically, work proactively and manage complex design projects from an initial concept through to a successful, detailed resolution.

In your final year you will also complete a major project, specialising in an area of your own interest. You will also undertake an internship in a design practice, preparing you to enter the profession with confidence.

Graduates of the Interior Design and Decoration Diploma, and the Interior Design Advanced Diploma may be offered advanced standing for this course.

Bachelor of Early Childhood Education and Care (Birth-5)

Offering practical early childhood education and care skills, theoretical knowledge and work experience, the Bachelor of Early Childhood Education and Care (Birth-5) is designed to develop early childhood teachers who can integrate theoretical knowledge into practical education and care skills in the workplace.

There is a strong, applied learning focus to this degree so that when you graduate, you will be ready to work in a variety of settings including long day care, preschool, integrated child and family services and early intervention services. The practical core units are supplemented by extensive work experience which will allow you to apply what you’ve learned in a real world environment.

You will study child development and pedagogical practices, welfare, ethics, diversity and social justice. During work placements, you will have the opportunity to test your theoretical understanding in a real workplace.

Graduates of this industry recognised qualification can look forward to a career as an early childhood teacher in long day care, preschool, integrated child and family services, and early intervention services.

Further information is available online at sydneytafe.edu.au/degrees
The Bachelor of Fashion Design provides a diverse educational experience designed to give you the skills and knowledge you need to channel your creativity as a designer within the constraints of the business environment.

Delivered with a global fashion industry perspective, the Bachelor of Fashion Design draws on Sydney TAFE’s international links to ensure currency with global fashion business trends, and provides a broad range of potential career outcomes.

With a list of alumni that includes Dion Lee, Nicky Zimmermann, Romance Was Born, Akira Isogawa and Alex Perry, Sydney TAFE’s Fashion Design Studio can prepare you for roles as a fashion designer, design director or creative director.

You can also pursue a career as a:
- product developer
- fashion stylist
- fashion buyer
- production manager
- merchandising manager
- fashion events manager.

Graduates of the Fashion Diploma and Advanced Diploma may be offered advanced standing for this course.

Further information is available online at sydneytafe.edu.au/degrees
Bachelor of Property Valuation

The Bachelor of Property Valuation is Australia’s only specialist property valuation degree and will prepare you to work as a valuer of any property class in NSW. This qualification has been developed with the support of the Office of the NSW Valuer General, the NSW Office of Fair Trading, and the Australian Property Institute.

Offered at Ultimo campus, the degree focuses on the skills required for working professionally as a property valuer while ensuring graduates have a thorough understanding of the principles that underpin the realisation of valuation concepts, including background and preparation for a number of specialised areas of valuation practice.

The program will help you:

• develop the ability to explore ideas, think critically and operate professionally
• to learn through active engagement and experimentation with techniques and processes relevant to property valuation
• to interact with industry experts, site visits and field trips to enhance the practical learning experience.

Possibly the best decision I’ve made in the past 10 years was to gain a degree in applied management

Chris Anders - graduate Bachelor of Applied Management Working for Steelforce Australia

Delivered in partnership with Federation University Australia, the Bachelor of Applied Management offers students the chance to complete not only the degree, but two industry related TAFE qualifications as well.

Focused on developing a solid technical and practical knowledge in management, successful completion of an approved diploma and advanced diploma (or equivalent) program as part of the degree provides guaranteed entry into the final year of this three year course.

Students will focus their studies on a broad range of areas, including:
- project management
- strategic human resource management
- marketing
- international business management
- applied workplace practice
- entrepreneurship
- accounting.

Graduates can seek careers in:
- project management
- HR management
- a range of senior business management and financial management roles.

“Possibly the best decision I’ve made in the past 10 years was to gain a degree in applied management”

Chris Anders - graduate Bachelor of Applied Management Working for Steelforce Australia
Bachelor of Commerce (Event Management)

This course offers students the opportunity to undertake the Advanced Diploma of Event Management at Sydney TAFE, while at the same time as studying for a degree at the University of Wollongong (UOW).

Students undertake studies at both TAFE and the Southern Sydney campus of UOW for the first 18 months of this three-year program, before moving to full-time studies with the university to complete the Bachelor of Commerce (Event Management).

Students who have previously completed the TAFE Diploma in Event Management can also gain advanced standing in this degree.

Further information is available online at sydneytafe.edu.au/degrees
The Bachelor of Information Technology offers sought-after practical experience in a wide range of IT areas including networking, web technology and multimedia design.

Delivered in partnership with Federation University Australia, this three-year degree program is recognised by the Australian Computer Society and also covers programming, software engineering, electronic data management, cloud computing and mobile app development.

A flexible course offering a range of opportunities. Students can seek out careers as a:
- network manager
- app developer
- software engineer
- systems analyst
- multimedia developer
- database administrator
- project manager
- IT consultant.

Reductions in completion times are also available for students holding an eligible IT diploma or advanced diploma.

Further information is available online at sydneytafe.edu.au/degrees
Eligibility for degree courses
To be eligible for admission into an undergraduate degree program, you do not require an Australian Tertiary Admission Rank (ATAR), but must meet the entry requirements listed on the individual courses contained in this brochure.

If you do not satisfy any of the minimum eligibility requirements you may seek entry into a course under special admission provisions including disadvantage or mature age. You will be required to submit appropriate documentation to support your application for special admission.

Entry requirements
Each course of study may set its own specific entry requirements in addition to the minimum eligibility requirements. For example, students may need to successfully complete a test and/or interview or submit a portfolio of evidence.

Selection criteria
Your application will be assessed against a range of selection criteria relevant to the course or discipline for which you are applying.

Application process
Application forms for all courses are available online, or in person at any of our seven college locations.

If your application is successful, Sydney TAFE will send you an offer letter. To accept the offer of a place, you must complete and return the Acceptance Form that is attached to your offer letter by the date specified in the offer letter.

A fee invoice will be issued to you upon receipt of your Acceptance Form.

If you do not accept the offer by the date indicated, your offer will be withdrawn and your place in the course will be offered to another applicant.

International students
Different application processes and forms apply to international students. Please contact Sydney TAFE on the details below:
